# RHYTHMS OF PLAY

This group is for caregiver and child (ages 18 months to 4 years) seeking to engage in activities that will stimulate your child's developing brain, sensory system and physical body. This group is appropriate for children of all developmental levels. Through music therapy and occupational therapy techniques, caregiver and child will engage in purposeful play and music. Families will leave group with great melodies and new insights into using play as a tool for healthy development.
